Professional Summary

Software engineer with experience building full-stack applications using React, TypeScript, and C#. Proven ability to deliver complex projects on tight deadlines while collaborating effectively in Agile development environments.

EXPERIENCE

SMX/ASRC Federal: (remote) - *Software Engineer*

October 2020 - PRESENT

- Designed and implemented full-stack applications (React Javascript, typescript, C#, SQL Relational DB, Entity Framework, HTML, XML, JSON, CSS, and more)
- Created and maintained RESTful APIs, resulting in improved data flow and efficiency
- Automated processes and testing within the React framework using Jest, unit tests, integration tests, and Selenium, improving accuracy and efficiency.
- Developed reusable React components with TypeScript, React UI libraries, and Redux state management.
- Delivered Agile tickets through GitLab CI/CD pipelines.

ARA: Eglin AFB, FL - *Software Engineer / Scrum Master*

Oct 2019 – Mar 2020

- Assisted with onboarding, account set up, and training of new hires(leading them through our pipeline using GitLab, Visual Studio, PowerShell, etc)
- Led a team as ISSM (Information System Security Manager), ensuring secure and compliant execution of classified lab requirements
